

# DP510

## Semi-auto IC Tube Marker

- ★ High speed tube IC marking machine
- ★ Desktop size
- ★ Super easy to use

DP510 semi-auto IC Tube Marker can stamp 6,000 IC per hour. The function of operation is complete and easy to adjust the position and marker size by setting micrometer. It can use control valve in order to modify the stamping speed.

DP510 adopts the rubber head for dot, character and number making. DP510 presents high quality marking performance.

### Specifications

Throughput	6,000 UPH
Marker Type	Dot (1.5mm ~ 2.0mm) 、 Character and number (2mm x 3mm)
Ink	Available for different color
Tube Type	DP510 is dedicated based on different tube size
Tube Capacity	Single Tube In ;Single Tube Out
Operational Interface	1. LCD 2. Control Valve 3. Micrometer.
Dimension (WxDxH)	260mm*300mm*400mm
Weight	8.1Kg
Power Supply	220V
Air Pressure	0.6 MPa (~6.0 kg/cm <sup>2</sup> ) ; Φ6mm air hose
